Dear Mr. Brogan:

The Houston Airport System's Public Safety and Technology Division would like to thank you and your company for your efforts in deploying your security film product at our George Bush Intercontinental Airport and William P. Hobby Airport facilities.

We believe in the importance of providing a safe and secure environment for our travelers, visitors, patrons and employees and in order to do so, we conduct exhaustive research and analysis of the products that we consider to be potential solutions.

After conducting a thorough evaluation of your product's capabilities, including the results from the test conducted by The Houston Police Department's SWAT Team, we found your security film to be a unique and successful solution for our security and blast resistant window film needs.

From the evaluation of the results, through installation and quality control processes you and your company have gone the extra mile providing us with exceptional customer service and product support in a professional, cordial and efficient manner.

Sincerely,

A handwritten signature in black ink, appearing to read "Frank Haley".

Frank Haley
Deputy Director
Public Safety and Technology
