C-Bond Systems' Patriot Glass Solutions Division Receives Notice of Award to Install C-Bond Security Film at Texas School District Adjacent to Uvalde

By installing C-Bond security film, this school will meet the Texas Education Agency's proposed requirements for school safety

HOUSTON, April 17, 2023 (GLOBE NEWSWIRE) -- C-Bond Systems (the "Company" or "C-Bond") (OTC: CBNT), a nanotechnology solutions company, today announced that its Patriot Glass Solutions division has received a notice of award to install C-Bond Secure, a patented security film system, at another Texas school district, which is adjacent to Uvalde, TX.

C-Bond Secure is stronger than just security film alone. C-Bond Secure, the Company's proprietary glass strengthener, which is applied directly to the window prior to the application of window film, increases the strength and flexibility of the underlying glass. When used in conjunction with security film, C-Bond Secure can delay forced entry by up to a minute and a half, which gives law enforcement or other security personnel significantly more time to apprehend the perpetrator.

"By installing C-Bond security film, this school will meet the Texas Education Agency's proposed requirements for school safety," said Michael Wanke, President of Patriot Glass Solutions. "We are bidding on new school projects almost daily and expect this momentum to continue as school safety stays top of mind."

Patriot Glass Solutions protects schools, businesses, and other organizations across the country with its safety and security films. Earlier this year the Company announced that the Texas Education Agency ("TEA") put forth a proposal requiring the installation of security window film, fencing, or walls at all Texas schools. More information about the TEA's proposal can be found in this article in Window Film Magazine. Further, in October 2022, the State of Texas Legislative Budget Board approved $400 million in funding to help school districts replace or improve windows, doors, fencing, and other safety measures.

Forward-Looking Statements

Statements in this press release about our future expectations, including the likelihood that we are bidding on new school projects almost daily and expect this momentum to continue as school safety stays top of mind.", constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Litigation Reform Act of 1995. Such forward-looking statements involve risks and uncertainties and are subject to change at any time, and our actual results could differ materially from expected results. These risks and uncertainties include, without limitation, the Company's ability to successfully commercialize its products; the likelihood that the TEA's proposal will be adopted; the Company's and its customers' ability to source materials; construction delays; the Company's ability to raise capital; regulatory risks; as well as other risks. Additional information about these and other factors may be described in the Company's filings with the Securities and Exchange Commission ("SEC") including its Form 10-K filed on March 31, 2023, its Forms 10-Q filed on November 14, 2022, August 15, 2022, and May 16, 2022, and in future filings with the SEC. The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.
