C-Bond Systems' Patriot Glass Solutions Division Receives Largest School Purchase Order Ever from Cotulla, Texas Independent School District Totaling $127,000 for its Bullet-Resistant and Forced Entry Film Systems

HOUSTON, Oct. 04, 2022 (GLOBE NEWSWIRE) -- C-Bond Systems (the "Company" or "C-Bond") (OTC: CBNT), a nanotechnology solutions company, today announced that its Patriot Glass Solutions division has received a new purchase order in excess of $127,000 from Cotulla Independent School District in Texas to install C-Bond BRS bullet-resistant system and C-Bond Secure forced entry film systems at various schools. This is the largest purchase order the Company has ever received from a school district, and it expects to begin the installations later this month.

Patriot Glass Solutions offers two security film products: C-Bond Secure, which includes a liquid glass strengthening primer/window film mounting solution used in conjunction with security film to deter forced entry, and C-Bond BRS, a ballistic-resistant film system that includes C-Bond's patented glass strengthening technology and security film to help stop bullets from penetrating glass. These products are primarily targeted to educational, commercial, government, and healthcare facilities.

"This particular Texas school district acted very quickly following the tragic shooting in Uvalde to get our safety film systems installed at their various schools," said Michael Wanke, President of Patriot Glass Solutions. "We are not seeing any signs of activity in Texas slowing down as it relates to schools looking to procure our security systems to keep students and staff protected."

C-Bond BRS is validated by an independent third-party laboratory to provide National Institute of Justice (NIJ) Level I, Level IIA, Level II, and Underwriters Laboratories (UL) 752 ballistic-resistant protection.

Forward-Looking Statements

Statements in this press release about our future expectations, including the likelihood that we will begin the installations later this month; the likelihood that we are not seeing any signs of activity in Texas slowing down as it relates to schools looking to procure our security systems to keep students and staff protected; constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Litigation Reform Act of 1995. Such forward-looking statements involve risks and uncertainties and are subject to change at any time, and our actual results could differ materially from expected results. These risks and uncertainties include, without limitation, the Company's ability to successfully commercialize its products; the effect of the COVID-19 global pandemic on the Company's and its customers' ability to operate; the Company's and its customers' ability to source materials; construction and labor delays; the Company's ability to raise capital; regulatory risks; as well as other risks. Additional information about these and other factors may be described in the Company's filings with the Securities and Exchange Commission ("SEC") including its Form 10-K filed on April 15, 2022, its Forms 10-Q filed on August 15, 2022, May 16, 2022, and November 15, 2021, and in future filings with the SEC. The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.
