Patriot Glass Solutions, a Subsidiary of C-Bond Systems, Seeing Increased Demand from Synagogues and Other Religious Facilities in the Wake of Social Unrest and Threats Related to the Israel – Hamas War

Patriot Glass Solutions received a new purchase order for C-Bond BRS ballistic-resistant film system for a synagogue in Florida and is in the process of bidding jobs for several other synagogues

SAN ANTONIO, July 11, 2024 (GLOBE NEWSWIRE) -- [C-Bond Systems](#) (the "Company" or "C-Bond") (OTC: CBNT), a developer and marketer of glass strengthening solutions for enhanced safety, today announced that its [Patriot Glass Solutions](#) subsidiary is seeing increased demand from synagogues and other religious facilities in the wake of social unrest and threats related to the Israel – Hamas war. Patriot Glass Solutions has just received a new purchase order for C-Bond BRS (ballistic-resistant system) for a synagogue in Florida.

Patriot Glass Solutions is currently custom-cutting the ballistic-resistant film for the synagogue in Florida and is in the process of bidding jobs for several other synagogues in various geographies in the U.S.

[C-Bond BRS](#) is a ballistic-resistant film system that includes C-Bond's patented glass strengthening technology and multiple layers of security film on specified glass thickness. C-Bond BRS is certified by third-party labs to meet National Institute of Justice Level I, Level IIA, Level II, Level III, and Underwriters Laboratories (UL) 752 ballistic-resistant protection standards. C-Bond BRS is more affordable than bullet-resistant polycarbonate materials and is easy to install.

Patriot Glass Solutions also offers a forced-entry resistant security film system called [C-Bond Secure](#), which utilizes C-Bond's glass strengthener with security film. C-Bond Secure delays forced entry, giving law enforcement or other security personnel significantly more time to lead those inside a facility to safety and apprehend the perpetrator.

"In today's world of social, political, and religious conflict, the need to fortify the many different buildings where people go to learn, pray, or simply carry out their day-to-day lives is ever-present," stated Scott R. Silverman, Chairman and CEO of C-Bond. "We are proud to be a part of the solution for a safer community with our patented, independently validated products."

"Like schools, one of our primary markets, synagogues, churches, and other religious

facilities are places of learning and worship where our children, our families, and those who work there must be protected. We look forward to expanding our role in protecting these types of facilities,” concluded Silverman.

Forward-Looking Statements

Statements in this press release about our future expectations constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Litigation Reform Act of 1995. Such forward-looking statements involve risks and uncertainties and are subject to change at any time, and our actual results could differ materially from expected results. These risks and uncertainties include, without limitation, the Company’s ability to successfully commercialize its products; the Company’s and its customers’ ability to source materials; construction delays; film delays; the Company’s ability to raise capital; regulatory risks; as well as other risks. Additional information about these and other factors may be described in the Company’s filings with the Securities and Exchange Commission (“SEC”) including its Form 10-K filed on April 1, 2024, its Forms 10-Q filed on May 14, 2024, November 14, 2023, and August 14, 2023, and in future filings with the SEC. The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.
