C-Bond Systems' Patriot Glass Solutions Subsidiary Receives Follow-On Purchase Order for Large Oil Company, Increasing Size of Job to Approximately \$500,000

Patriot Glass Solutions is installing C-Bond BRS (ballistic-resistant system) at oil company's Houston offices to prevent damage and injury from gunfire

SAN ANTONIO, Texas, Dec. 11, 2023 (GLOBE NEWSWIRE) -- [C-Bond Systems](#) (the "Company" or "C-Bond") (OTC: CBNT), a developer and marketer of glass strengthening solutions for enhanced safety, announced today that its [Patriot Glass Solutions](#) subsidiary has received a follow-on purchase order for a large oil company for approximately \$170,000, increasing the size of the job to approximately \$500,000. The purchase order is for C-Bond BRS (ballistic-resistant system), which is being installed at the oil company's offices in Houston.

The Company previously announced, in conjunction with the receipt of other purchase orders, the initial purchase order for this customer in October. The initial purchase order was in excess of \$300,000.

Patriot Glass Solutions' [C-Bond](#) BRS is a ballistic-resistant film system that includes C-Bond's patented glass strengthening technology, which is applied onto the glass prior to the application of window film, and multiple layers of security film on specified glass thickness to help stop bullets from penetrating glass. C-Bond BRS is certified by third-party labs to meet National Institute of Justice Level I, Level IIA, Level II, and Underwriters Laboratories (UL) 752 ballistic-resistant protection standards.

Patriot Glass Solutions also offers forced entry-resistant film, applied with its proprietary glass strengthener, which is its [C-Bond Secure](#) product. When used in conjunction with security film, C-Bond Secure delays forced entry, which gives law enforcement or other security personnel significantly more time to lead those inside a facility to safety and apprehend the perpetrator.

"We are proud to install our best-in-class ballistic-resistant film system for this large oil company, which is taking a proactive stance to protect their people and their facility," said Michael Wanke, President of Patriot Glass Solutions. "We continue to work to expand the use of our safety film products in educational, commercial, healthcare, and government facilities."

Forward-Looking Statements

Statements in this press release about our future expectations, including the likelihood that we continue to work to expand the use of our safety film products in educational, commercial, healthcare, and government facilities, constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Litigation Reform Act of 1995. Such forward-looking statements involve risks and uncertainties and are subject to change at any time, and our actual results could differ materially from expected results. These risks and uncertainties include, without limitation, the Company's ability to successfully commercialize its products; the likelihood that schools will comply with the Texas Education Agency's rule on school safety; the Company's and its customers' ability to source materials; construction delays; film delays; the Company's ability to raise capital; regulatory risks; as well as other risks. Additional information about these and other factors may be described in the Company's filings with the Securities and Exchange Commission ("SEC") including its Form 10-K filed on March 31, 2023, its Forms 10-Q filed on November 14, 2023, August 14, 2023, and May 15, 2023, and in future filings with the SEC. The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.
