C-Bond Systems' Patriot Glass Solutions Subsidiary Receives \$185,000 Purchase Order from Texas School District Boerne ISD to Install C-Bond Security Window Film Technology

More than 180 schools, government buildings, commercial buildings, and more have chosen Patriot Glass Solutions' products to protect their facilities and those inside

SAN ANTONIO, April 19, 2024 (GLOBE NEWSWIRE) -- [C-Bond Systems](#) (the "Company" or "C-Bond") (OTC: CBNT), a developer and marketer of glass strengthening solutions for enhanced safety, today announced its [Patriot Glass Solutions](#) subsidiary has received a \$185,000 purchase order from Boerne Independent School District in Texas to install C-Bond Secure forced entry-resistant window film technology. The Company expects the installation to begin later this month.

Patriot Glass Solutions offers forced-entry resistant security film and ballistic-resistant film systems. [C-Bond Secure](#), the Company's proprietary glass strengthener, is applied directly to the window prior to the application of window film to increase the strength and flexibility of the underlying glass. When used in conjunction with security film, C-Bond Secure delays forced entry, which gives law enforcement or other security personnel significantly more time to lead those inside a facility to safety and apprehend the perpetrator.

Patriot Glass Solutions also offers [C-Bond BRS](#), a ballistic-resistant film system, which includes C-Bond's patented glass strengthening technology and multiple layers of security film on specified glass thickness to help stop bullets from penetrating glass. C-Bond BRS is certified by third party labs to meet National Institute of Justice Level I, Level IIA, Level II, and Underwriters Laboratories (UL) 752 ballistic-resistant protection standards.

"Schools and school districts in Texas continue to purchase our forced entry-resistant security system, as well as our ballistic-resistant solution, to protect students and staff and comply with the Texas Education Agency's Final Rule on school safety standards," stated Michael Wanke, President of Patriot Glass Solutions. "We are also bidding on school projects in other parts of the country as demand grows."

C-Bond's glass strengthening protection solutions have been installed in more than 180 schools, government buildings, media sites, and other high-security facilities around the country.

Forward-Looking Statements

Statements in this press release about our future expectations constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Litigation Reform Act of 1995. Such forward-looking statements involve risks and uncertainties and are subject to change at any time, and our actual results could differ materially from expected results. These risks and uncertainties include, without limitation, the Company's ability to successfully commercialize its products; the Company's and its customers' ability to source materials; construction delays; film delays; the Company's ability to raise capital; regulatory risks; as well as other risks. Additional information about these and other factors may be described in the Company's filings with the Securities and Exchange Commission ("SEC") including its Form 10-K filed on April 1, 2024, its Forms 10-Q filed on November 14, 2023, August 14, 2023, and May 15, 2023, and in future filings with the SEC. The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.
