C-Bond Systems' Patriot Glass Solutions Dealer Network Grows to 50 Dealers

The Company is currently bidding on projects across the country as the demand for security film and bullet-resistant window film increases

SAN ANTONIO, May 09, 2024 (GLOBE NEWSWIRE) -- C-Bond Systems (the "Company" or "C-Bond") (OTC: CBNT), a developer and marketer of glass strengthening solutions for enhanced safety, today announced its Patriot Glass Solutions subsidiary dealer network has grown to include 50 dealers around the U.S. and overseas.

"The level of bidding activity is higher than ever, both directly within Patriot Glass Solutions and what we are seeing from our dealers," said Michael Wanke, President of Patriot Glass Solutions. "We currently are bidding projects in New York, New Jersey, Washington, Montana, Michigan, Colorado, California, St. Lucia, Delaware, Arkansas, Hawaii, Ohio, Florida, and of course Texas. There is a heightened concern for added security, and windows are considered a weak point in any structure. Our C-Bond Secure and C-Bond BRS are a cost-effective solution to address that weakness."

Patriot Glass Solutions offers forced-entry resistant security film and ballistic-resistant film systems. C-Bond Secure, the Company's proprietary glass strengthener, is applied directly to the window prior to the application of window film to increase the strength and flexibility of the underlying glass. When used in conjunction with security film, C-Bond Secure delays forced entry, which gives law enforcement or other security personnel significantly more time to lead those inside a facility to safety and apprehend the perpetrator.

Patriot Glass Solutions also offers C-Bond BRS, a ballistic-resistant film system, which includes C-Bond's patented glass strengthening technology and multiple layers of security film on specified glass thickness to help stop bullets from penetrating glass. C-Bond BRS is certified by third party labs to meet National Institute of Justice Level I, Level IIA, Level II, and Underwriters Laboratories (UL) 752 ballistic-resistant protection standards.

C-Bond's glass strengthening protection solutions have been installed in more than 180 schools, government buildings, media sites, and other high-security facilities around the country.

The dealers have signed Patriot Glass Solutions dealer agreements and are in various stages of training to become certified installers to sell Patriot Glass Solutions' technology.

Forward-Looking Statements

Statements in this press release about our future expectations constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Litigation Reform Act of 1995. Such forward-looking statements involve risks and uncertainties and are subject to change at any time, and our actual results could differ materially from expected results. These risks and uncertainties include, without limitation, the Company's ability to successfully commercialize its products; the Company's and its customers' ability to source materials; construction delays; film delays; the Company's ability to raise capital; regulatory risks; as well as other risks. Additional information about these and other factors may be described in the Company's filings with the Securities and Exchange Commission ("SEC") including its Form 10-K filed on April 1, 2024, its Forms 10-Q filed on November 14, 2023, August 14, 2023, and May 15, 2023, and in future filings with the SEC. The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.
