C-Bond Systems Continues to Expand its Installation Base with more than 200 Schools, Commercial and other Buildings Choosing its Glass Strengthening Products for Enhanced Security

C-Bond's Patriot Glass Solutions Subsidiary Just Awarded Another Purchase Order for a Texas School in Excess of $70,000 for its Forced Entry-Resistant System

SAN ANTONIO, June 10, 2024 (GLOBE NEWSWIRE) -- C-Bond Systems (the "Company" or "C-Bond") (OTC: CBNT), a developer and marketer of glass strengthening solutions for enhanced safety, today announced that its Patriot Glass Solutions subsidiary continues to expand its installation base with more than 200 schools, commercial and other buildings choosing to install its products enhanced security. Patriot Glass Solutions' newest order, in excess of $70,000, is from a Texas school for its C-Bond Secure forced entry-resistant system.

This purchase order underscores the growing demand for C-Bond's forced entry-resistant and bullet-resistant technologies, and the Company's continued execution of its business plan. Patriot Glass Solutions also has 50 dealers throughout the country.

C-Bond's patented glass strengthening technology, C-Bond Secure, is applied to architectural glass before the application of window film. When used in conjunction with a single layer of security film, C-Bond Secure delays forced entry, which gives law enforcement or other security personnel more time to lead those inside a facility to safety and apprehend the perpetrator.

Patriot Glass Solutions also markets C-Bond BRS, a ballistic-resistant film system that includes C-Bond's patented glass strengthening technology and multiple layers of security film on specified glass thickness. C-Bond BRS is certified by third-party labs to meet National Institute of Justice Level I, Level IIA, Level II, Level III, and Underwriters Laboratories (UL) 752 ballistic-resistant protection standards. C-Bond BRS is more affordable than bullet-resistant polycarbonate materials and is easy to install.

"We are proud to see continued interest and trust in our products from our customers, which include general contractors, school districts, our growing dealer network and more," said Scott R. Silverman, Chairman and CEO of C-Bond Systems. "This $70,000 order is a testament to the effectiveness and reliability of our patented nanotechnology. We remain dedicated to providing cutting-edge solutions that enhance safety and security."

C-Bond Systems, through its Patriot Glass Solutions subsidiary, is committed to delivering innovative protective solutions that meet or exceed stringent industry standards. The Company's products are scientifically tested and proven to significantly increase the strength, safety, and performance levels of glass and window film products.
